PROFILE

As a fourth-year student, I'm eager to kickstart my career with dedication and hard work. I'm quick to grasp new concepts and apply them practically. My goal is to join a dynamic team, use my skills to benefit the organization, and keep growing professionally.!

SKILLS

- JavaScript
- React.js
- PLC Programming
- Python
- Robotics Programming
- Arduino
- Microsoft Office

EXPERIENCE

I participated in the "Adolf Haimovici" Mathematics Competition and successfully advanced to the national phase. This experience honed my problem-solving skills and reinforced my passion for mathematics.

As part of an Erasmus project in Poland, I completed a three-week internship at an auto service. During this time, I gained practical hands-on experience in automotive mechanics, troubleshooting, and customer service. This opportunity broadened my perspective on the automotive industry and enhanced my ability to work effectively in diverse environments.

I excelled in the Mechanics Olympiad, achieving second place at the county level. This competition challenged me to apply theoretical knowledge to practical problem-solving scenarios, further developing my analytical and critical thinking skills.

Throughout my college years, I undertook summer jobs at a gas station, where I had the opportunity to interact with a wide range of customers. This experience taught me valuable lessons in effective communication, adaptability, and teamwork. It also instilled in me a strong work ethic and a commitment to delivering high-quality service in any role I undertake.

EDUCATION

HIGH SCHOOL

liceul tehnologic "Trandafir Cocarla"
2015 - 2019

BACHELOR OF ENGINEERING

University of Politehnic Timisoara
2019 - 2024
